

**TREVUZ**  
PRODUCT DEVELOPMENT & MANUFACTURING EXPERT

# About Us

WE ARE PRODUCT DEVELOPMENT AND MANUFACTURING EXPERTS

Trevuz Sourcing's objective has been to be the first choice partner for brands for product development design and manufacturing needs. With investment in our compliant factories, a US-based design team and a global sourcing office, we develop products on-trend, design at right price points.

# Why partner with us?

## MARKET RESEARCH

US and European competitor analysis  
Trend forecasting

## PRODUCT DEVELOPMENT

Technical sketches and colored CADs  
Graphic, print and yarn dye design  
Technical fits  
Fabric, trim and technique sourcing

## COMPETITIVE PRICING

Price engineering design and fabric to  
meet tight cost targets

## FAST SAMPLING

Actual fabric, trims and color samples  
Dedicated sample room open everyday

## ON TIME DELIVERY

98% on time delivery record  
since 2003

## QUALITY CONTROL

Certified quality control team to  
ensure all quality standards are  
maintained

## COMMUNICATION

Global offices allow seamless  
24/7 communications

## FLEXIBILITY

Ability to accommodate last  
minute changes to design and  
still keep scheduled delivery

# Value Proposition

Product &  
Design Innovation  
supported by  
Technology

Speed to  
Market

Cost  
Optimization

Total Quality  
Management  
& Vendor  
Up-Gradation

Social  
Compliance

We are committed to bring forth the best of expertise in terms of varied product, precise cost, engineered process to quality at each step

# Systematic Approach

GOAL: DESIGN AND MANUFACTURE TREND RIGHT QUALITY APPAREL AT ATTRACTIVE PRICE POINTS FOR BUYERS

## RESEARCH

### COMPETITOR ANALYSIS

- Analyze aspirational brands, direct competitors, and trend services to determine trend direction
- Perform benchmark analysis of client products vs. competitors' products

### PRICE ENGINEERED SOURCING

- Comparable good, better, best tier development of fabric, trims, and artwork techniques based on target retail to provide buyer options
- Make proto samples to better understand opportunity to increase garment quality and increase manufacturing productivity

## DEVELOPMENT

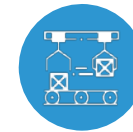

### PRODUCT DEVELOPMENT WORKSHOP

- Present trend report, benchmark analysis, market shopping, proto samples and fabric, trim, and technique development to buyer and designer to determine needs list

### PRICE ENGINEERED DESIGN

- Complete CAD work based on needs list including body sketch with technical call outs, colored bodies with prints and graphics, and artwork pitch sheets
- Provide multiple price options to give buyer choices in her strategy to achieve the most value added product at the correct price point

## PRODUCTION

### FAST ACCURATE SAMPLING

- Technical support to achieve the correct style and fit of product
- Multiple mock-ups to give buyer and designer options

### TRANSPARENT AND ACCOUNTABLE FOLLOW UP

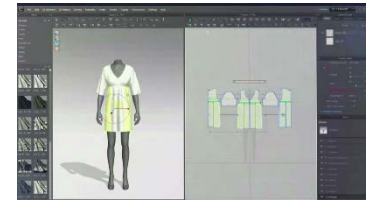

- Regular detailed communication reports on production status
- Regular quality checks on garment to ensure no quality issues
